**Q: Tell us about yourself and how you got interested in spiritual and paranormal subject matters.**

**Danielle:** I'm all about universe, love, healing, paranormal, and all other strange and unique things! As a young child, I was introduced to ancient craft, which I continue to practice up to the present day. My studies and passion for stars, spirituality, and ancient geometry occupy most of my days. I breath and live star dust. I am able to astral traveling to escape from reality.

What most call paranormal for me is normal because of my gift and my curse that I received from my great grandmother. I did study nursing and psychology, but my life path was spirituality and healing. After

my mother was diagnosed with cancer, I did enter into reiki and earned a master's diploma. I did realize that I can use this ancient healing to help others after I saw it working and helping my mother during her fight against this horrific disease!

After my mother's heroic fight and victory over cancer, I decided to open the New Age Studio, an

energetic medical healing center where your frequency matters! We offer spiritual guidance, sound therapy, reiki, meditation, and other therapeutic techniques methods! I did know and learn from some of the best shamans about healing stones and crystals, and that's why I'm the director of Third Eye Jewelry!

My joy is my son, Zachary George, my dog (or we can say my little daughter Maggie), and let's not forget the little chatter box parrot Kiki. I spend a lot of time with books or in the field looking for answers. I recently became a host of *After Hours* on Spaced Out Radio. I love Mother Earth, and I'm a member supporter of Green Canada environment protection, and I support work for charities. This love for nature did bring me closer to all living creatures, including culture and beliefs of the First Nation.

**Q: Tell us about your book, *The Magic of the Spirit Lake*.**

**Danielle:** My mother's victory over cancer was a miracle that was given by the Aboriginal power of healing and magic of the spirit lake of Lake Saint Anne! To say thank you, I wrote the book about this hidden gem that provides healing to one that come and ask.

It's a true story about ancient healing, spiritual practices, and a journey that brought my mom back to life and her family!

**Q: How did you become a reiki master?**

**Danielle:** After my mother was diagnosed with cancer, I was searching for something to help her with her pain. During her stay at the hospital, I did see one of the Buddhist monks applying this ancient technique on one of the patients that was his relative.

I saw that it was very helpful, so approached the monk and he told me all about it. The next week I was enrolled in a program for it!

**Q: Why is it beneficial for people to see a reiki master? How are you able to help people with reiki?**

**Danielle:** It's beneficial for their overall well-being! Reiki is not invasive; it uses universal energy to balance, heal, and improve all aspects of health!

The first step is recognizing the source of the issue and healing it from the root and balancing the body systems! It's about making the person stronger from the inside out.

**Danielle is author of the book *The Magic of the Spirit Lake*, which details the true story of the healing powers of Lake Saint Anne.**

**Q: Are you involved with paranormal investigating?**

**Danielle:** I'm a third-generation psychic and medium! Like I said, what is paranormal for many is normal for me! Shadow people, ghosts, astral projection, visions are daily things of my life! I do many paranormal investigations, from haunted homes to personal attacks and healings.

**Q: Have you witnessed anything that would be considered as paranormal?**

**Danielle:** I have had many experiences with shadow people, ghosts, and lately Bigfoot.

Standing at the intersection of the supernatural and the healing arts, Danielle Diva Borozan embraces her unique destiny.

**Q: What is your main goal in life?**

**Danielle:** My main goal is to help people understand that there is always an option for them when it comes to their own lives! I aim to serve others with my gift and be a good person that others can count on!

**Q: As a counselor, how do you assist people?**

**Danielle:** People come to me from all different backgrounds, cultures, and religions. They all want answers and guidance. Some are spiritual and seek answers from the other side. Some ask for advice when it comes down to their personal life choices, such as switching jobs or going back to school.

Many come for personal readings that will give them guidance about the past, present, and future. I give them a map or compass that they can easily use to find their way and their destination!

**Q: I hear that Count Dracula may be your ancestor. Can you explain?**

**Danielle:** What you heard is the truth! My family did do a genetic testing! We did hear many stories about our ancestors and family, and that's why we did it! We found out that I'm connected very closely to many

different important individuals in history, including Queen Victoria, Napoleon, Maria Theresa, and Vlad Tepes, who did marry into this family!

As a child, I did hear many stories about it. For us, he is a hero and crusader — not what Hollywood has portrayed

**Q: Tell us about some of your current projects.**

**Danielle:** I'm a host on the *After Hours* show, which is live every weekend. We talk about paranormal research, including UFOs, ancient history, and Bigfoot!

I'm writing two books and doing more research on my uncle Count Dracula! This project is very personal to me because I feel that it's my duty — because of my bloodline — to show the truth and wash the face of a hero who was proclaimed a monster by Hollywood and Bram Stoker! So wrong!

Another project I'm working on is almost complete. It's a children's story about "Somewhere Land" that I dedicated to my son, Zachary!
